Report of Work Done during Industrial Project Training

Company Name	Bacancy Technology
Project Title	
Platform, tools, language, framework, database	.Net, Angular, SQL server management studio, Visual Studio
Name of student(s)	Savaliya Zenisha
Student(s) Email Id	zenishasavaliya96@gmail.com
Student(s) Contact No	9586842849
New Roll No (Semester-VIII)	CE035
Student Id. No	20CEUOG050

Sr. No.	FromDate	ToDate	Work done by the student in brief
1	22/01/24	25/01/24	I learned about inheritance in C# and practiced with questions. I also understood polymorphism, abstraction, and encapsulation. I explored the differences between interfaces and abstract classes, and did exercises to solidify the concepts. Finally, I gave a test to check my understanding in all this concept which I learnt.
2	29/01/24	02/02/24	Started learning .NET Core and got into the details of how a .NET Core project is structured. Explored middleware and did practical tasks related to it. Also, got the hang of dependency injection in .NET Core and did hands-on tasks to understand it better. Also learned about JWT tokens and the POSTMAN tool.
